About RSI

4904

Restaurant Services, Inc. (RSI) is an independent member-owned purchasing cooperative serving BURGER KING® restaurant owners in the United States.

RSI was founded in 1991 as the exclusive purchasing agent for the vast majority of products used by the U. S. BURGER KING system. Its primary purpose is to leverage the buying power of BURGER KING restaurants to achieve favorable contracts for food, packaging, premiums, promotion products, supplies, equipment, distribution and related services on behalf of more than 8,300 restaurants.

RSI's Board of Directors is comprised of BURGER KING franchisees, elected by region, one Burger King Corporation representative and one member appointed by the Minority Franchisee Association. The cooperative maintains a close working relationship with Burger King Corporation, with respective roles and responsibilities outlined in a formal Operating Agreement.

RSI works closely with restaurant owners, Burger King Corporation, food and packaging suppliers, marketing agencies, equipment vendors, distributors and information systems providers to streamline and improve the supply chain efficiency

A screenshot of a software interface for report selection and parameter setting. The interface is divided into several sections. On the left, under "Report Selection", there is a "Report Type" dropdown menu currently showing "Optimal Product Routing". Below this, under "Report Parameters", there are three input fields: "Supplier" with "(All)" selected, "Supplier FOB" with "(All)" selected, and "Distribution Center" with "(All)" selected. At the bottom left, there is a "Version" field showing "Base Version". On the right, under "Report Name:", there is a list box containing several report names: "Freight Information Provided", "Freight Information Provided", "LTL Routing Grid By Lane", "Routing Results By Lane", "Routing Results By Lane, Item", "Routing Results w/ RDC Breakout By Lane", "Routing Results w/ RDC Breakout By Lane, Item", and "TL Freight Variance Analysis". The first two entries are highlighted. The interface has a standard Windows-style look with a title bar and window controls.
